Full stack developer

I graduated from the Faculty of Economics with first-class honors from Kasetsart University, Sriracha Campus. However, I decided to pursue a career as a full-stack developer on my own. I embarked on this journey through my own studies such as YouTube ChatGPT and Stack Overflow , determined to fulfill my achievement. I'm always ready to learn new thing, even when they are challenging. I believe in my ability to overcome difficulties.

Experience

Web3

2020 - Present

- I have more than 3 years of experience in web3, Cryptocurrencies, DeFi, GameFi, NFTs and SocialFi. I have a chance to made them for profit and also a regular user of various networks such as the Ethereum, Arbitrum and Linea network.

Developer

2023-Present

- I have learned to create projects on my own as Full stack developer.
 - Frontend, using React and Next.js to build projects.
 - Backend, worked on Node.js and Databases, including MongoDB and MySQL.

Additionally, I already learned about Scrum and Agile methodology. Furthermore, I have completed personal projects that involved to creating RESTful APIs as well as implementing login systems apart from that I also integrated APIs from various platforms for the example ThemovieDB deployed to my projects.
